

How to Add a Professional Development Course to Your Registration

STEP 1

Go to the AERA Homepage (www.aera.net). Click the “Login” button found in the top right corner of the page. This link should bring you to the page pictured below. Login to your account using the User Name and Password that you used to register for the Annual Meeting and/or signed up for an AERA Membership. If you cannot remember your User Name or Password, please click the orange links titled “Forgot your User Name/Password?” and you will receive an email with a link to reset your username/password within 60 minutes.

Login

Log in to your secure account to access your My AERA page, where you will find links to join or renew your membership, purchase books and merchandise, update your profile, review information about the AERA Annual Meeting, and more.

Remember Login

STEP 2

Once you have logged in, click the “My AERA” button to bring you to the Welcome page (it may automatically direct you to this page). Scroll down the Membership page until you see the Annual Meeting section, and click on the orange link “Register and Reserve a Hotel Room Now” or “View and Add Events to Existing Registration”:

STEP 3

Complete your meeting registration and select “Continue” (at the bottom of the page) when you are done. Then, select “Proceed” (at the bottom of the page) after submitting your demographic and registration information. Once you are on the Registration page, you can click the tab titled “PDC” which will show all the Professional Development courses that are being offered.

Code	Professional Development Courses	Start	End	Price	
PDC01	Analyzing Data from International Large-Scale Assessments Using R	4/4/2019 9:00 am	4/4/2019 5:00 pm	135.00	View Details

STEP 4

Click "View Details" to reserve a ticket for the course. Please note that you can only purchase tickets for courses that are not already sold out.

Add Tickets to Cart ✕

PDC20: Social Network Modeling

This course is for participants interested in learning about social network models and is appropriate for researchers at any stage in their career, students included. Course content includes several short lectures mixed with practice with R code: an introduction to R, an introduction to social network analysis, practice analyzing a single social network in R, review of social network models and introduction to hierarchical network models, and practice fitting social network models to multiple networks in R. Participants will leave the course with an understanding of quantitative methods available for analyzing social networks as well as the current state of model capabilities, R code for analyzing their own networks and fitting network models.

Cost: \$105.00
